

GDI VALVE CLEANER

150X

MORE CONCENTRATED THAN
PREMIUM FUEL ADDITIVES

100%

OF GAS-POWERED ENGINES CAN
NOW BE TREATED
WITHOUT TOP ENGINE
DISASSEMBLY

PROVEN TO REMOVE UP TO

46%

OF CARBON DEPOSITS IN
THE FIRST HOUR AFTER USE

Check out the video on our
website or on Youtube!

1. PROBLEM SET

- Dirt and deposits in the fuel system.
- The disturbed air flow causes a bad fuel/air mixture.
- The valve can not guarantee a perfect seal anymore.
- Too hot (and burning) valves.
- Severe misfiring.
- Restricting proper airflow
- Increasing operation temps
- Poor acceleration
- Hard starts / Rough idle
- Reduced fuel economy

2. SOLUTION = CRC GDI VALVE CLEANER

- Cleans carbon and gum deposits on the inlet valves.
- Lowers consumption.
- Lowers CO₂ production.
- Increases power and torque.
- Improves fuel economy.
- Safe on turbos and intercoolers.
- Use every 15.000 km.
